도입부

① 워밍업 / ② 가정법 / ③ TED 시청 Q&A / ④-1 (a) 매칭

도입부 (① ② ③ ④-1) — 정답 및 해설

1 학년 반 번호: 이름:

A. ① 워밍업 질문 — 정답 / 학생 답안 평가

◆◆ • How many legs do you have? "I have two legs."

• Can you guess the meaning of "My 12 pairs of legs"? "I think that the word means the person who have disability."

▶ 1 번 I have two legs.

→ 맞음. 더 자연스럽게는 "I have two legs." 또는 "I have a pair of legs." 로 표현 가능.

▶ 2 번 I think the phrase refers to a person who has a disability.

→ 의미는 통하지만 문법적으로 두 군데 교정 필요.

① "the word means" → "the phrase means / the title refers to" (My 12 pairs of legs 는 단어가 아니라 '구·제목'이므로 **phrase / title** 이 적절)

② "who have disability" → "who **has a disability**" (선행사 person 은 3 인칭 단수 → has; disability 는 가산명사 → 관사 a 필요)

◆◆ 강연을 본 뒤 교정된 의미:

실제로는 "장애인"이 아니라, Aimee Mullins 가 가진 12 쌍의 prosthetic legs (의수족 12 쌍) 을 가리킵니다. 그녀는 상황·목적·미적 콘셉트에 따라 다양한 다리를 바꿔 끼우는데, 이 다양성 자체가 강연의 핵심 비유입니다.

B. ② Complete the sentence — 가정법 모범답안

※ 네 패턴 모두 “~이 없다면(없었다면)”이라는 동일한 의미. 주절은 가정법 과거 (S + would/could/might + 동사원형).

#	주어진 패턴	모범답안 (영어)	한국어 해석
(a)	Without eyes, _____ .	we could not see the beauty of the world.	눈이 없다면, 우리는 세상의 아름다움을 볼 수 없을 것이다.
(b)	Were it not for hands, _____ .	we would not be able to grasp anything.	손이 없다면, 우리는 어떤 것도 잡을 수 없을 것이다.
(c)	If it were not for ears, _____ .	we could not enjoy the sound of music.	귀가 없다면, 우리는 음악 소리를 즐길 수 없을 것이다.
(d)	But for _____, _____ .	But for legs, I would not be able to walk freely.	다리가 없다면, 나는 자유롭게 걸을 수 없을 것이다.

▷ 가정법 핵심 정리: “~이 없다면” 4 가지 표현 = 모두 동의

1. **Without + 명사, S + 조동사과거 + V 원형**

2. **Were it not for + 명사, S + 조동사과거 + V 원형** (= If it were not for ~ 의 도치형, 격식체)

3. **If it were not for + 명사, S + 조동사과거 + V 원형**

4. **But for + 명사, S + 조동사과거 + V 원형**

◆◆ 시제 구분:

현재의 가정 → **were it not for / if it were not for + 명사, S + would/could/might + V 원형**

과거의 가정 → **had it not been for / if it had not been for + 명사, S + would/could/might + have p.p.**

C. ③ Let's see TED together — 시청 후 5 문항 모범답안

#	Question	모범답안
(a)	Who is the speaker?	Aimee Mullins — an American Paralympic athlete, fashion model, actress, and motivational speaker. Both her legs were amputated below the knee at the age of one because she was born without fibulae.
(b)	Write down her characteristics.	Confident, cheerful, resilient, brave, decisive, extroverted; an inspiring person who wears 12 pairs of prosthetic legs and redefines disability as augmentation rather than deficiency.
(c)	What did you see in the video?	Various pairs of prosthetic legs (carbon-fiber sprinting cheetah legs, silicone legs, glass / polyurethane legs, soil-and-beetroot legs, jellyfish legs, hand-carved wooden legs); Aimee speaking on the TED stage; fashion-shoot and runway photos with Alexander McQueen.

#	Question	모범답안
(d)	What is her job?	She is a motivational speaker, Paralympic sprinter, fashion model, actress, and disability-rights activist. ④ 단락 본문에서 그녀가 cheetah-leg 디자인에 대해 세계 각지에서 강연 초청을 받는 모습이 직접 묘사됨.
(e)	What does she want to say through this speech?	Disability should no longer be seen as a deficiency to be overcome, but as an opportunity for augmentation, creativity, and potential. A prosthetic limb can be a wearable sculpture and a symbol of self-design — humans can become "the architects of their own identities." It is our shared humanity, with all its potential, that makes us beautiful.

D. ④-1 (a) Match the words and meanings — 정답

단어	Meaning (정답)	한국어 뜻
censor	to remove parts of something that you do not want someone to see or hear	검열하다

단어	Meaning (정답)	한국어 뜻
rein in	to control undesirable activity or growth, or control someone who is behaving badly	통제하다, 억제하다
stare	to look for a long time with the eyes wide open, especially when surprised, frightened, or thinking	응시하다
poke (prod)	to push a finger or other pointed object quickly into someone or something	쿡 찌르다
wiggle	to move up and down or from side to side with small, quick movements, or to cause this to happen	꿈틀거리다, 흔들다

E. 도입부 핵심 어휘 — 동의어 / 반의어 정리

단어 / 표현	한국어 의미	동의어 (≡) / 반의어 (↔)
disability	장애	≡ impairment, handicap ↔ ability, capability
appropriate	적절한, 알맞은	≡ suitable, fitting, proper ↔ inappropriate, unsuitable
characteristic	특징, 특성 / 특유의	≡ feature, trait, attribute ↔ aberration
censor	검열하다 / 검열관	≡ edit out, suppress, expurgate
rein in	통제하다, 제지하다	≡ restrain, curb, hold back ↔ release, let loose
stare	응시하다, 뵈히 쳐다보다	≡ gaze, gape, peer

단어 / 표현	한국어 의미	동의어 (≒) / 반의어 (↔)
poke	쿡 찌르다	≒ prod, jab, nudge, prick
prod	쿡 찌르다, 자극하다	≒ poke, nudge, push, stimulate
wiggle	꿈틀거리다, 흔들다	≒ wriggle, jiggle, squirm
frightened	겁먹은, 무서워하는	≒ scared, terrified, afraid ↔ fearless, calm
undesirable	바람직하지 않은	≒ unwanted, unwelcome, objectionable ↔ desirable, welcome
grasp	꽉 잡다, 이해하다	≒ grip, seize, comprehend ↔ release, miss
Paralympic	패럴림픽의 (장애인 올림픽)	— Olympic for athletes with disabilities
amputate	절단하다 (수술로)	≒ cut off, sever, remove (surgically)
motivational	동기를 부여하는	≒ inspirational, encouraging ↔ demotivating

I was speaking to a group of about 300 kids, ages six to eight, at a children's museum, and I brought with me a bag full of legs, similar to the kinds of things you see up here, and had them laid out on a table for the kids. And, from my experience, you know, kids are naturally curious about what they don't know, or don't understand, or is foreign to them. They only learn to be frightened of those differences when an adult influences them to behave that way, and maybe censors that natural curiosity, or you know, reins in the question-asking in the hopes of them being polite little kids. So I just pictured a first grade teacher out in the lobby with these unruly kids, saying, ★"Now, whatever you do, don't stare at her legs."

■ Q1. Why did the teacher say ★"Now, whatever you do, don't stare at her legs."?

◆◆ 학생 답안:

"Because watching her legs can be rude to her."

▶ 평가: △ 의미는 통하나 본문 핵심을 절반만 반영. 두 군데 보강 필요.

① watching →

staring

(본문 어휘 stare 그대로 사용해야 정확. watching 은 의도적·지속적 시청의 뉘앙스로 부적절)

② "rude to her" 만으로는 부족. 본문은

"어른이 아이에게 정중하게 행동하라고 가르쳐서(censors curiosity / reins in question-asking)"

라는 핵심을 강조함.

▶ 모범답안:

The teacher told the kids not to stare because adults teach children that staring at someone with prosthetic legs is impolite. Adults often censor children's natural curiosity and rein in their question-asking, in the hopes of making them appear "polite."

◆◆ 본문 근거:

"an adult influences them to behave that way, and maybe censors that natural curiosity, ... in the hopes of them being polite little kids."

C. ㉞ 단락 — 빈칸 정답 지문

But, of course, that's the point. That's why I was there, I wanted to invite them to look and explore. So I made a deal with the adults that the kids could come in without any adults for two minutes on their own. The doors open, the kids descend on this table of legs, and they are poking and prodding, and they're wiggling toes, and they're trying to put their full weight on the sprinting leg to see what happens with that. And I said, "Kids, really quickly -- I woke up this morning, I decided I wanted to be able to jump over a house -- nothing too big, two or three stories -- but, if you could think of any animal, any superhero, any cartoon character, anything you can dream up right now, what kind of legs would you build me?"

And immediately a voice shouted, "Kangaroo!" "No, no, no! Should be a frog!" "No. It should be Go Go Gadget!" "No, no, no! It should be the Incredibles." And other things that I don't -- aren't familiar with. And then, one eight-year-old said, "Hey, why wouldn't you want to fly too?" And the whole room, including me, was like, "Yeah." (Laughter) And just like that, I went from being a woman that these kids would have been trained to see as "disabled" to somebody that had potential that their bodies didn't have yet. Somebody that might even be super-abled. Interesting.

◆◆ 결정적 변화:

Aimee 는 한 8 세 아이의 “Why wouldn’t you want to fly too?” 질문 한 마디로, 아이들이 보던 자신의 정체성이

“disabled (장애가 있는)” → “potential (잠재력을 가진), super-abled (초능력자)”

으로 단숨에 뒤집히는 순간을 경험함. 이 일화가 강연 전체의 핵심 메시지(장애 = 결핍이 아닌 augmentation/potential)로 이어짐.

So some of you actually saw me at TED, 11 years ago. And there's been a lot of talk about how life-changing this conference is for both speakers and attendees, and I am no exception. TED literally was the launch pad to the next decade of my life's exploration. At the time, the legs I

presented were **groundbreaking** in **prosthetics**. I had woven carbon fiber sprinting legs modeled after the hind leg of a cheetah, which you may have seen on stage yesterday. And also these very life-like, **intrinsically** painted silicone legs.

C. ㉔ 박스 — Choose T or F

㉔	This is the first lecture that Aimee Mullins gives.	F	본문: "some of you actually saw me at TED, 11 years ago." → 11 년 전 TED 에서 이미 강연했으므로 처음이 아님.
㉔	Aimee Mullins's prosthetic legs were very new in the field.	T	본문: "the legs I presented were groundbreaking in prosthetics." → groundbreaking = 획기적인, 새로운 것.

D. ㉔ 단락 — 빈칸 정답 지문

So at the time, it was my **opportunity** to put a call out to innovators outside the **traditional** medical prosthetic community to come bring their talent to the **science** and to the **art** of building legs. So that we can stop **compartmentalizing** form, function and aesthetic, and assigning them different values. Well, lucky for me, a lot of people answered that call. And the journey started, funny enough, with a TED conference attendee -- Chee Pearlman, who hopefully is in the audience somewhere today. She was the editor then of a magazine called ID, and she gave me a **cover story**.

E. ㉔ 박스 — Choose T or F

㉓	Innovators of new prosthetic legs distinguished form and function from aesthetic.	F	본문: "we can stop compartmentalizing form, function and aesthetic." → 오히려 form·function·aesthetic 을 분리(compartmentalize) 하는 것을 멈추고자 했음. distinguished 가 아닌 정반대.
㉔	Aimee Mullins became the editor of a magazine 'ID'.	F	본문: "Chee Pearlman ... was the editor then of a magazine called ID, and she gave me a cover story." → ID 잡지의 편집자는 Chee Pearlman 이며, Aimee 는 그 잡지의 cover story(표지 기사)에 등장했을 뿐.

This started an incredible journey. Curious encounters were happening to me at the time; I'd been accepting numerous invitations to speak on the design of the cheetah legs around the world. And people would come up to me after the conference, after my talk, men and women. And the conversation would go something like this, "You know Aimee, you're very attractive. You don't look disabled." (Laughter) I thought, "Well, that's amazing, because I don't feel disabled." And it really opened my eyes to this conversation that could be explored, about beauty. What does a beautiful woman have to look like? What is a sexy body? And interestingly, from an identity standpoint, what does it mean to have a disability? I mean, people -- Pamela Anderson has more prosthetic in her body than I do. Nobody calls her disabled.

B. ㉠ 박스 질문 정답

■ Q1. Based on ㉠, what is Aimee Mullins' job?

▶ **She is a (motivational/public) speaker.**

근거 — 본문: "I'd been accepting numerous invitations to speak on the design of the cheetah legs around the world." → 그녀는 세계 곳곳에서 강연 초청을 받아 의수족 디자인에 관해 강연하는 강연자(speaker)이다. (TED 전체 맥락에서는 Paralympic athlete, model, designer, activist 도 함께 적용 가능)

■ Q2. What kind of personality does Aimee Mullins have?

✓ <u>cheerful</u>	✓ <u>resilient</u>	introvert	✓ <u>confident</u>	✓ <u>extrovert</u>
-------------------	--------------------	-----------	--------------------	--------------------

✓ <u>decisive</u>	indecisive	✓ <u>brave</u>	arrogant	timid
-------------------	------------	----------------	----------	-------

※ ✓ 표시된 단어가 정답. introvert(내성적), indecisive(우유부단), arrogant(거만), timid(소심)는 본문 속 Aimee Mullins 의 모습과 맞지 않음.

C. ㉠ 단락 — 빈칸 정답 지문

So this magazine, through the hands of graphic designer Peter Saville, went to fashion designer Alexander McQueen, and photographer Nick Knight, who were also interested in exploring ★that conversation★. So, three months after TED I found myself on a plane to London, doing my first fashion shoot, which resulted in this cover -- "Fashion-able"? Three months after that, I did my first runway show for Alexander McQueen on a pair of hand-carved wooden legs made from solid ash. Nobody knew -- everyone thought they were wooden boots. Actually, I have them on stage with me: grapevines, magnolias -- truly stunning. Poetry matters. Poetry is what elevates the banal and neglected object to a realm of art. It can transform the thing that might have made people fearful into something that invites some to look, and look a little longer, and maybe even understand.

D. ㉠ 박스 질문 정답

■ Q3. What is ★that conversation★?

▶ The conversation about beauty and disability — what a beautiful woman has to look like, what a sexy body is, and what it means to have a disability.

근거 — ㉠ 단락 끝에서 Aimee 가 자신의 눈을 뜨게 한 "conversation that could be explored, about beauty" 를 언급한 직후, ㉠ 단락 첫 문장에서 그 잡지의 디자이너들이 "that conversation" 을 함께 탐구하고 싶어 했다고 이어진다. 따라서 ★that conversation★ 은 미(美)·섹시함·정체성으로서의 장애에 관한 대화를 가리킨다.

I learned this **firsthand** with my next adventure. The artist Matthew Barney, in his film **opus** called the "The Cremaster Cycle." This is where it really **hit home** for me -- that my legs could be wearable sculpture. And even at this point, I started to move away from the need to **replicate** human-ness as the only aesthetic ideal. So we made what people lovingly referred to as glass legs even though they're actually optically clear polyurethane, a.k.a. bowling ball material. Heavy! Then we made these legs that **are cast** in soil with a potato root system growing in them, and beetroots out the top, and a very lovely brass toe. That's a good close-up of that one. Then another character was a half-**woman**, half-**cheetah** -- a little **homage** to my life as an **athlete**. 14 hours of prosthetic make-up to get into a creature that had articulated paws, claws and a tail that whipped around, like a gecko. (Laughter) And then another pair of legs we collaborated on were these -- look like **jellyfish** legs, also polyurethane. And the only purpose that these legs can serve, outside the context of the film, is to provoke the senses and **ignite** the imagination. So **whimsy** matters.

C. What kind of legs are mentioned in ㉠? ▶ 정답

①	Glass legs	— optically clear polyurethane (a.k.a. bowling ball material) 로 제작된 다리. 실제로는 유리가 아니라 매우 무거운 폴리우레탄.
②	Soil / Potato-and-beetroot legs	— 흙 속에 주조된(cast in soil) 다리로, 안에 potato root system 이 자라고 위로 beetroots 가 솟아오르며, brass toe 가 달려 있음.
③	Cheetah legs (half-woman, half-cheetah)	— 영화 속 반은 여자, 반은 치타인 캐릭터를 위한 다리. prosthetic make-up 14 시간을 거쳐 articulated paws, claws, tail 까지 갖춘 생명체로 변신.

④	Jellyfish legs	— 해파리 형상을 본뜬 폴리우레탄 다리. 영화 외적 목적은 오직 '감각을 자극하고 상상력에 불을 붙이는 것'.

D. 핵심 어휘 — 동의어 / 반의어 정리

단어 / 표현	한국어 의미	동의어 (≡) / 반의어 (↔)
firsthand	직접 (경험한)	≡ directly, personally, in person ↔ secondhand, indirectly
opus	(예술) 작품, 대작	≡ work, composition, creation, masterpiece
hit home	절감하게 하다, 가슴에 와닿다	≡ resonate, sink in, strike a chord, dawn on
replicate	복제하다, 재현하다	≡ duplicate, reproduce, copy, imitate ↔ originate, invent
homage	경의, 존경의 표시	≡ tribute, respect, honor, reverence ↔ disrespect
ignite	점화하다, 불을 붙이다, 자극하다	≡ kindle, spark, set off, arouse ↔ extinguish, smother
whimsy	기발함, 엉뚱함, 변덕	≡ fancy, quirkiness, playfulness, caprice ↔ seriousness, gravity
deficiency	결핍, 부족	≡ shortage, lack, insufficiency, scarcity ↔ abundance, sufficiency
augmentation	증대, 확대, 증강	≡ enlargement, expansion, increase ↔ reduction, decrease, diminution
limb	사지(팔/다리), (나무) 큰 가지	≡ arm, leg, appendage, extremity
aesthetic	미적인, 심미적인	≡ artistic, visual, decorative ↔ unaesthetic, ugly

단어 / 표현	한국어 의미	동의어 (≒) / 반의어 (↔)
articulated	관절이 있는, 분절된	≒ jointed, segmented, hinged ↔ rigid, fixed
provoke	유발하다, 자극하다	≒ stimulate, evoke, trigger, incite ↔ soothe, calm
wearable	착용 가능한, 입을 수 있는	≒ portable, attachable ↔ unwearable
collaborate	협력하다, 공동작업하다	≒ cooperate, work together, partner ↔ compete, oppose

§ 6

Part III

① ② — 키 변화 일화 / "the architects of their own identities"

④-3. Part III (① ②) — 정답 및 해설

A. ① 단락 — 빈칸 정답 지문

※ 빈칸 정답은 빨간색 굵은 밑줄로 표시했습니다.

Today, I have over a dozen pair of prosthetic legs that various people have made for me, and with them I have different negotiations of the terrain under my feet, and I can change my **height** -- I have a variable of five different heights. (Laughter) Today, I'm 6'1". And I had these legs made a little over a year ago at Dorset Orthopedic in England and when I brought them home to Manhattan, my first night out on the town, I went to a very fancy party. And a girl was there who has known me for years at my normal 5'8". Her mouth dropped open when she saw me, and she went, "But you're so tall!" And I said, "I know. Isn't it fun?" I mean, it's a little bit like wearing stilts on stilts, but I have an entirely new relationship to door jamb that I never expected I would ever have. And I was having fun with it. And she looked at me, and she said, "But, Aimee, that's not **fair**." (Laughter) (Applause) And the incredible thing was she really meant it. It's not fair that you can change your **height**, as you want it.

B. ② 단락 — 빈칸 정답 지문

And that's when I knew -- that's when I knew that the conversation with society has changed **profoundly** in this last decade. It is no longer a conversation about overcoming **deficiency**. It's a conversation about **augmentation**. It's a conversation about **potential**. A prosthetic **limb** doesn't represent the need to **replace** loss anymore. It can stand as a symbol that the wearer has the **power to create whatever it is** that they want to create in that space. So people that society once considered to be **disabled** can now become the **architects** of their own identities and indeed continue to change those identities by designing their bodies from a place of empowerment. And what is exciting to me so much right now is that by combining **cutting-edge technology** -- robotics, bionics -- with the age-old poetry, we are moving closer to understanding our **collective humanity**. I think that if we want to discover the full potential in our humanity, we need to celebrate those **heartbreaking strengths** and those **glorious disabilities** that we all have. I

think of Shakespeare's Shylock: "If you prick us, do we not bleed, and if you tickle us, do we not laugh?" It is our humanity, and all the potential within it, that makes us **beautiful**. Thank you.
(Applause)

C. From ㉠ to ㉡, which one is your favorite part? Why? ▶ 모범답안 예시

※ 자유 응답 문항이므로 정답은 학생마다 다를 수 있습니다. 아래는 답안 작성 시 활용 가능한 예시 두 가지입니다.

Sample 1	㉠ (the "tall" anecdote)
- my favorite part: ㉠ - reason(s): I like this part the most because it shows how prosthetic legs can be a source of fun and freedom rather than a limitation. The friend's reaction "But you're so tall!" — and especially "But, Aimee, that's not fair." — is humorous, but it also reveals a powerful shift in perspective: society no longer pities her, but actually envies her ability to change her height. This anecdote concretely illustrates the talk's main idea — that disability can be reframed as augmentation.	

Sample 2	㉡ (the closing message)
- my favorite part: ㉡ - reason(s): I find this part most inspiring because Mullins redefines what it means to be "disabled." Phrases like "the architects of their own identities" and "celebrate those heartbreaking strengths and those glorious disabilities" challenge the traditional view of disability as a deficiency to be overcome. By quoting Shakespeare's Shylock, she universalizes her message: every human being shares the same humanity and potential, and that is what makes us beautiful.	

D. ㉠ ㉡ 핵심 어휘 — 동의어 / 반의어 정리
